## NOTATIONS

1. This codebook contains the actual questions and categories from the CATI questionnaire. Interviewer instructions have been retained for completeness.
2. N/A = not applicable.
3. The SPSS system file contains a weight variable. The final sample sizes obtained for Edmonton, Calgary, and Other Alberta are not proportional to the Alberta populations they represent. Therefore, weighting is necessary to combine the samples for a provincial dataset.

If the sample is analyzed individually by region, then no weighting is necessary; for example, if the researcher is only interested in Calgary respondents.

In the SPSS system file the weighting variable is: wtx. By default the weight variable is off.

To turn weighting on: WEIGHT BY WTX

To turn weighting off: WEIGHT OFF

The weighting factors used for the 2009 Alberta Survey are as follows:

Edmonton:            0.960324

Calgary:             0.999098

Other Alberta:       1.040968

For further details on the weighting calculation, please see sampling report.

## **INTRODUCTION**

### **INTRO1**

Hello, my name is \_\_\_\_\_. I'm calling (long distance) from the Population Research Laboratory at the University of Alberta.

Have I dialed XXX-XXXX? Your phone number was randomly selected.

### **PRESS '1' TO CONTINUE**

Hello, I am calling back from the Population Research Laboratory to continue an interview that we started previously.

### **INTRO2**

The Population Research Laboratory at the University of Alberta is conducting a public opinion survey of Albertans. The study is being done on behalf of a variety of researchers. We'd like you to know that your input is valuable to this project. It will assist researchers to develop public policies and understand issues that affect our lives.

**[OPTIONAL READ]** The topics range from population health, Alberta seniors and community supports, ethics and disabilities, neighbourhood disorder and social control, children in the labour force, financial vulnerability, impaired driving, and the Adult and Child Fitness Tax credit.

**[OPTIONAL READ]** The study sponsors are the Population Research Laboratory, the University of Alberta, the University of Calgary, Athabasca University, the John Dossetor Health Ethics Centre, Alberta Seniors and Community Supports, and the Alberta Centre for Injury Control and Research.

### **INTRO3**

This interview will take about 30 to 35 minutes. Is this a good time?

- 1 Yes
- 2 No

**NUMWOM**

Before we start this interview, we need to make sure that we speak to an equal number of men and women. Can you please tell me ...

How many women aged 18 and older live at this number?

\_\_\_\_\_ Number of women

99 Refused **[DO NOT READ]**

**NUMMEN**

And how many men aged 18 and older live at this number?

**[IF NO ONE 18 YEARS OR OLDER LIVES IN THE HOUSEHOLD, TERMINATE THE INTERVIEW. SELECT A HOUSEHOLD RESPONDENT ACCORDING TO THE STANDARDIZED RESPONDENT SELECTION GUIDELINES.]**

**[OPTIONAL READ:** We don't always speak to the person who answers the phone. If possible, we would like to speak to an adult member of the household who is 18 years of age or older. May I speak to the male/female who is available? (Repeat intro if necessary)]

[Schedule callback if not available.]

**VERIFY18**

And just to confirm, are you 18 years of age or older?

- 1 Yes, 18 years or older
- 2 No, underage

**[ASK TO SPEAK TO ADULT MEMBER OF HOUSEHOLD]**

**[OPTIONAL READ:** We don't always speak to the person who answers the phone. For this interview, I would like to speak to an adult member of the household who is 18 years of age or older. May I speak to the male/female who is available? (Repeat intro if necessary)]

**INTRO4**

May we start the interview now?

- 1 Yes
- 2 No

[**NOTE: CELL PHONES** - If the person is on a cell phone, continue if he/she says it is okay. If they provide you with another number they would like you to call instead, record the new number in message line and schedule callback.]

**FOIPP**

I would like to assure you that your participation in this interview is completely voluntary. If there are any questions you don't wish to answer, please point these out to me and we'll go on to the next question. You, of course, have the right to end this phone call at any time.

The information you provide will be used only for the indicated purposes in conformity with the Alberta Freedom of Information and Protection of Privacy Act (FOIPP).

If you have any questions about this study, you can call Erin Stepney at the Population Research Lab (collect) at (780) 492-4659, ext. 225.
